FOR IMMEDIATE RELEASE

Heavy-Duty, PROTECT-A-RAIL® Cab Protector Now Available From WEATHER GUARD®

CRYSTAL LAKE, IL – February 2004 – WEATHER GUARD® Equipment has introduced a new, heavy-duty PROTECT-A-RAIL® Cab Protector designed to protect pickup cabs from shifting loads in the cargo area.

The PROTECT-A-RAIL Cab Protector is constructed of heavy-duty steel tubing that offers a rugged look and performance. It features an accessory-ready design for mounting warning lights that is flexible to fit virtually every configuration. Hollow tube pathways of the PROTECT-A-RAIL Cab Protector framework house and protect wiring for the warning lights. Tie-down holes on the sides of the cab protector enable cargo to be secured. A ladder mount extension accessory is also available for securing ladders.

The WEATHER GUARD heavy-duty PROTECT-A-RAIL Cab Protector is designed to custom fit a variety of models of vehicles including Chevrolet, Ford and Dodge. Six separately sold vehicle-specific installation mounting kits are required to custom fit the PROTECT-A-RAIL Cab Protector to individual vehicles.

For added flexibility, the WEATHER GUARD PROTECT-A-RAIL Cab Protector can be adjusted from 23-3/8" to 26-3/8" high. It is finished with a black Armor-Tuf powder coating for an attractive and durable look.

The addition of the heavy-duty PROTECT-A-RAIL Cab Protector extends the original line of WEATHER GUARD PROTECT-A-RAIL Cab Protectors that the industry has come to know.

Knaack manufactures and markets a complete line of WEATHER GUARD® Equipment, including storage boxes, drawer units, shelving and cabinets, as well as racks for full-size and mini pickups, vans and utility vehicles.
