

REPLACEMENT KEYS FOR TRUCK BOXES

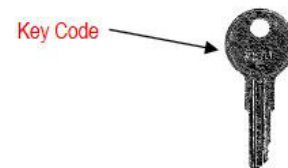

All of these keys will be sold as a set of 2

Current Style Locks

EXTREME PROTECTION™ Lock has been in use since 2005 on all Saddle Boxes, Cross Boxes, Lo-Side and Super-Lo Side Boxes, Pork Chop Boxes and All-Purpose Chests. The Trademarked Red Pushbutton fully retracts when the box is locked. Uses a red key. Replacement single lock is 77 48-1PK for random key codes or 7748-XX (XX = key code) for specific key codes. (7750-XX K-series keys use 4 spaces to fill in key code)

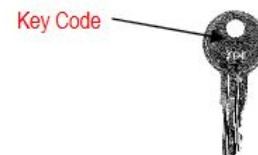

D-Handle Latch & Lock #7684-XX on Hi-Side and Underbed Boxes. Uses round gold key. Fits replacement lock cylinder core #710-XX. (700-XX are RH-series keys use 4 spaces to fill in key code)

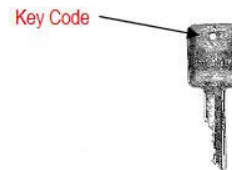

Old Style Locks

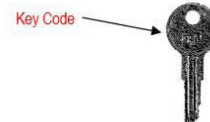

Paddle Handle Latch & Lock 7081-XX (XX = key code) or 7081-1PK used on Hi-Side and Underbed Boxes. Uses round gold key. (7007-series keys use 3 spaces to fill in key code, depending on the age of the box.)

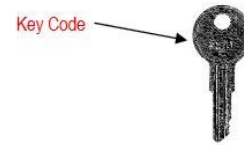

Trademarked Red Pushbutton Lock on Saddle Boxes, Cross Boxes, Lo-Side and Super-Lo Side Boxes, and Pork Chop Boxes manufactured prior to 2005. Uses square silver key. If lock needs to be replaced, use 7838-2PK EXTREME PROTECTION™ Lock Retrofit Kit which uses the red key. (708 KO-series keys use 4 spaces to fill in key code.)

T-Handle Lock used on All-Purpose Chests manufactured prior to 2005 use gold round key. Replacement T-Handle lock is 7156-XXX (XXX =key code). (700 RH-series keys use 4 spaces to fill in key code; 7007-series keys use 3 spaces to fill in key code.)

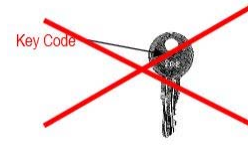

PACK RAT® Drawer Units use round gold key for 7637-XX lock (XX = key code). The same key is also used for the ITEMIZER® Drawer Unit accessory lock #7229-XX (XX = key code). (700 RH-series keys use 4 spaces to fill in key code.)

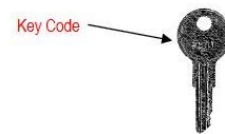

REPLACEMENT KEYS FOR VAN EQUIPMENT

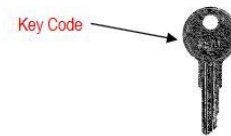

Lockable Van Cabinets and CATV Boxes are **sold only as a handle with keys.**

Van Shelf and Wheel Well Door use round gold key for small paddle handle latch and lock 929-3. (700 RH-series keys use 4 spaces to fill in key code.)

Van Equipment File Box lock #904 uses round gold key. (700 RH-series keys use 4 spaces to fill in key code.)

FAQ: FREQUENTLY ASKED QUESTIONS

What do I need to order replacement keys?

- You will need the key code printed on the key. Match your key to the pictures above to verify you are ordering the correct key. Other places to retrieve your key code include the white label on the carton, your Owner's Manual (if you placed it there) or, if you registered your key code, from Customer Care.

How do I register my key code?

- Register your key code at <http://www.weatherguard.com/en/support/product-registration> or <http://www.knaack.com/en/support/product-registration> This is a secure service provided as a convenience to WEATHER GUARD® and KNAACK® customers.

My box is locked and I lost my key. How do I get into my box?

- See a local distributor for a replacement lock. To find a distributor, go to <http://www.weatherguard.com/en/where-to-buy> or <http://www.knaack.com/en/where-to-buy>

How do I key alike my boxes?

- Depending on the box, you will need to change either locks or lock cylinders on the boxes to key them alike. Contact a distributor to place an order for locks with specific key codes. For security purposes, random key codes are packaged in retail packages. Specific key codes require a factory order.
